

§ 2001.15

32 CFR Ch. XX (7–1–12 Edition)

under this provision must be in writing, but need not be any more specific than to question why information is or is not classified, or is classified at a certain level.

(b) *Agency procedures.* (1) Because the Order encourages authorized holders to challenge classification as a means for promoting proper and thoughtful classification actions, agencies shall ensure that no retribution is taken against any authorized holders bringing such a challenge in good faith.

(2) Agencies shall establish a system for processing, tracking and recording formal classification challenges made by authorized holders. Agencies shall consider classification challenges separately from Freedom of Information Act or other access requests, and shall not process such challenges in turn with pending access requests.

(3) The agency shall provide an initial written response to a challenge within 60 days. If the agency is unable to respond to the challenge within 60 days, the agency must acknowledge the challenge in writing, and provide a date by which the agency will respond. The acknowledgment must include a statement that if no agency response is received within 120 days, the challenger has the right to forward the challenge to the Interagency Security Classification Appeals Panel (Panel) for a decision. The challenger may also forward the challenge to the Panel if an agency has not responded to an internal appeal within 90 days of the agency's receipt of the appeal. Agency responses to those challenges it denies shall include the challenger's appeal rights to the Panel.

(4) Whenever an agency receives a classification challenge to information that has been the subject of a challenge within the past two years, or that is the subject of pending litigation, the agency is not required to process the challenge beyond informing the challenger of this fact and of the challenger's appeal rights, if any.

(c) *Additional considerations.* (1) Challengers and agencies shall attempt to keep all challenges, appeals and responses unclassified. However, classified information contained in a challenge, an agency response, or an appeal shall be handled and protected in ac-

cordance with the Order and this Directive. Information being challenged for classification shall remain classified unless and until a final decision is made to declassify it.

(2) The classification challenge provision is not intended to prevent an authorized holder from informally questioning the classification status of particular information. Such informal inquiries should be encouraged as a means of holding down the number of formal challenges and to ensure the integrity of the classification process.

§ 2001.15 Classification guides.

(a) *Preparation of classification guides.* Originators of classification guides are encouraged to consult users of guides for input when developing or updating guides. When possible, originators of classification guides are encouraged to communicate within their agencies and with other agencies that are developing guidelines for similar activities to ensure the consistency and uniformity of classification decisions. Each agency shall maintain a list of its classification guides in use.

(b) *General content of classification guides.* Classification guides shall, at a minimum:

(1) Identify the subject matter of the classification guide;

(2) Identify the original classification authority by name and position, or personal identifier;

(3) Identify an agency point-of-contact or points-of-contact for questions regarding the classification guide;

(4) Provide the date of issuance or last review;

(5) State precisely the elements of information to be protected;

(6) State which classification level applies to each element of information, and, when useful, specify the elements of information that are unclassified;

(7) State, when applicable, special handling caveats;

(8) State a concise reason for classification which, at a minimum, cites the applicable classification category or categories in section 1.4 of the Order; and

(9) Prescribe a specific date or event for declassification, the marking "50X1-HUM" or "50X2-WMD" as appropriate, or one or more of the exemption

codes listed in 2001.26(a)(2), provided that:

(i) The exemption has been approved by the Panel under section 3.3(j) of the Order;

(ii) The Panel is notified of the intent to take such actions for specific information in advance of approval and the information remains in active use; and

(iii) The exemption code is accompanied with a declassification date or event that has been approved by the Panel.

(c) *Dissemination of classification guides.* Classification guides shall be disseminated as necessary to ensure the proper and uniform derivative classification of information.

(d) *Reviewing and updating classification guides.* (1) Agencies shall incorporate original classification decisions into classification guides as soon as practicable.

(2) Originators of classification guides are encouraged to consult the users of guides and other subject matter experts when reviewing or updating guides. Also, users of classification guides are encouraged to notify the originator of the guide when they acquire information that suggests the need for change in the instructions contained in the guide.

§ 2001.16 Fundamental classification guidance review.

(a) *Performance of fundamental classification guidance reviews.* An initial fundamental classification guidance review shall be completed by every agency with original classification authority and which authors security classification guides no later than June 27, 2012. Agencies shall conduct fundamental classification guidance reviews on a periodic basis thereafter. The frequency of the reviews shall be determined by each agency considering factors such as the number of classification guides and the volume and type of information they cover. However, a review shall be conducted at least once every five years.

(b) *Coverage of reviews.* At a minimum, the fundamental classification guidance review shall focus on:

(1) Evaluation of content.

(i) Determining if the guidance conforms to current operational and technical circumstances; and

(ii) Determining if the guidance meets the standards for classification under section 1.4 of the Order and an assessment of likely damage under section 1.2 of the Order; and

(2) Evaluation of use:

(i) Determining if the dissemination and availability of the guidance is appropriate, timely, and effective; and

(ii) An examination of recent classification decisions that focuses on ensuring that classification decisions reflect the intent of the guidance as to what is classified, the appropriate level, the duration, and associated markings.

(c) *Participation in reviews.* The agency head or senior agency official shall direct the conduct of a fundamental classification guidance review and shall ensure the appropriate agency subject matter experts participate to obtain the broadest possible range of perspectives. To the extent practicable, input should also be obtained from external subject matter experts and external users of the reviewing agency's classification guidance and decisions.

(d) *Reports on results.* Agency heads shall provide a detailed report summarizing the results of each classification guidance review to ISOO and release an unclassified version to the public except when the existence of the guide or program is itself classified.

Subpart C—Identification and Markings

§ 2001.20 General.

A uniform security classification system requires that standard markings or other indicia be applied to classified information. Except in extraordinary circumstances, or as approved by the Director of ISOO, the marking of classified information shall not deviate from the following prescribed formats. If markings cannot be affixed to specific classified information or materials, the originator shall provide holders or recipients of the information with written instructions for protecting the information. Markings shall be uniformly and conspicuously applied to leave no doubt about the
